

## How to have Notes automatically to mark cc-mails

What are you going to do?	How to do it?	Where is it?
<p><b>CC-mail automatically displayed with an icon</b></p> <p>(An empty circle)</p>	<p>Choose <b>File-menu &gt; Preferences.</b></p> <p>Choose <b>Mail &gt; Recipient Icons.</b></p>	

CC-mail appears in the Inbox with a white circle.

TIP: You can drag **Recipient Icon** box beside the sender 's name. Then it is easier to see.
